Projects

Oshomoy: A Streamlined Platform for Disaster Relief and Social Cause Donations

2024

- Developed Oshomoy, a platform focused on facilitating donations for disaster relief and social causes.
- Streamlined the donation process by integrating flexible payment options, donation history tracking, and account management features.
- Fostered a community-driven approach to donations, empowering individuals to make a meaningful impact during critical times.

Bangladesh Metro Rail Ticketing System Software

2022

- Developed a self-initiated Java-based software application for Bangladesh Metro Rail Ticketing System project.
- Simplified ticket purchases by enabling bulk transactions and integrating multiple payment methods, including digital payments.
- Implemented student fare discounts, enhancing accessibility and user experience.
